ALLIED MOULDED'S NON-METALLIC CEILING FIXTURE SUPPORT BOXES

PRODUCT FEATURES

- Meets UL 514C paragraph 29.2.3B for 24" span ceiling joist applications – will not deflect 1/4" when subjected to a 50 lb. load
- For use in ceiling fixture support applications from 16" to 24" joist spans
- Bar end tabs for proper height positioning of box on ceiling joists for single sheet drywall installations
- Removable tab for proper height positioning of box on ceiling joists for double drywall installations
- Spurs on each bar end for easy installation with a hammer
- For use with standard Allied Moulded 3 1/2" boxes – 9335-BH, 9336-BH, PC213-BH and 4" boxes 9350-BH, 9364-BH, PC234-BH (Note: Other options are available with clamps, ground straps and vapor seals)

Simply locate box height for standard ceiling drywall with BH positioning tabs or remove tabs for proper height positioning in applications with two sheets of sound deadening ceiling drywall.
